

Saffron - The Wonder Spice

Saffron is a member of the iris family. Its violet coloured flowers bloom in autumn. To produce saffron, the stigmas are painstakingly handpicked at dawn, cut from the white style and then, to enhance the flavour, dried or toasted over a very low heat to a deep red to orange-red colour.

Apart from its well documented medicinal benefits, saffron is a culinary treasure. It energises dishes with its distinctive fragrance and earthy essence. Iran is the most important producer of saffron. It accounts for approximately 90% of the world production of saffron.

It takes 4,500 flowers to make up one ounce or about 80,000 flowers to produce just 500g of the spice making it the most expensive spice in the world. It is no wonder, therefore, that cheaper imitations have made their appearance.

At **Saffron**, quality is our hallmark and we take pride in sourcing only the most authentic produce for use in our preparations. Be assured, therefore, that with us you will always savour the true **Taste of Saffron**.

Allergy advice: Some dishes on our menu may contain tree nuts, wheat, seeds, gluten, eggs and other allergens. Please ask for assistance if you require any information regarding the dishes or ingredients. Where possible, our staff will advise you on alternative dishes. Those bringing celebration cakes, etc. should provide the relevant allergen information to their guests.
